Publications by Alberto Bressan

Books

Books Edited

Book chapters, lecture notes

Research Papers

22. Nonexistence of solutions for differential inclusions with upper semicontinuous non-convex right-

34. Differential inclusions with non-closed, non-convex right hand side, Differential & Integral Equations, **3** (1990), 633–638.

131. Measure valued solutions to a harvesting game with several players. *Advances in Dynamic Games*

tung, A. Reigstad, and J. Ridder).

204. Diffusion approximations of Markovian solutions to discontinuous ODEs, submitted (with M. Mazzola and K. T. Nguyen).

207. Optimal control of moving sets, submitted (with M.T. Chiri and N. Salehi).

**Expository Papers, Conference Proceedings**

1. Dual variational methods in optimal control theory, in *Nonlinear Controllability and Optimal Con-

15. Viscosity solutions for hyperbolic systems where shock curves are straight lines, in Hyperbolic Prob-

27. Current research directions in hyperbolic systems of conservation laws, in: *Supplement to the Notiziario dell’Unione Matematica Italiana*, Vol. XXXI, dedicated to the 50-th anniversary of the
