

List of Publications

Marc Mézard

31 juillet 2023

1 Publications

Références

- [1] "Inclusive observables and hard gluon emission in neutrino deep inelastic scattering", C. Bouchiat, Ph. Meyer and M. Mézard, Nucl. Phys. B169 (1980) 189.
- [2] "Searching for a new light gauge boson in ψ , Υ , and positronium decays", P. Fayet and M. Mézard, Phys. Lett. 104B (1980) 226.
- [3] "Large N reduction in spin systems and Griffiths singularities", M. Mézard, Nucl. Phys. B225 [FS9] (1983) 551.
- [4] "On the nature of the spin-glass phase", M. Mézard, G. Parisi, N. Sourlas, G. Toulouse and M.A. Virasoro, Phys. Rev. Lett. 52 (1984) 1156.
- [5] "Replica symmetry breaking and the nature of the spin-glass phase", M. Mézard, G. Parisi, N. Sourlas, G. Toulouse, M. Virasoro, J. Physique 45 (1984) 843.
- [6] "Parity violation in metals", C. Bouchiat and M. Mézard, J. Physique 45 (1984) 1583.
- [7] "Self-averaging correlation functions in the mean field theory of spin glasses", M. Mézard and G. Parisi, J. Physique Lett. 45 (1984) L707.
- [8] "The simplest spin glass", D. Gross and M. Mézard, Nucl. Phys. B240 [FS12] (1984) 431.
- [9] "On the statistical mechanics of optimization problems of the traveling salesman type", M. Mézard and J. Vannimenus, J. Physique Lett. 45 (1984) L1145.
- [10] "Random free energies in spin glasses", M. Mézard, G. Parisi and M.A. Virasoro, J. Physique Lett. 46 (1985) L217.
- [11] "The microstructure of ultrametricity", M. Mézard and M.A. Virasoro, J. Physique 46 (1985) 1293.
- [12] "Replicas and optimization", M. Mézard and G. Parisi, J. Physique Lett. 46 (1985) L771.
- [13] "SK model : the replica solution without replicas", M. Mézard, G. Parisi and M.A. Virasoro, Europhys. Lett. 1 (1985) 77.
- [14] "Diffusion in an ultrametric space : a simple case", G. Paladin, M. Mézard and C. De Dominicis, J. Physique Lett. 46 (1985) L985.
- [15] "A replica analysis of the travelling salesman problem", M. Mézard and G. Parisi, J. Physique 47 (1986) 1285.
- [16] "Solvable models of working memories", M. Mézard, J.P. Nadal, G. Toulouse, J. Physique 47 (1986) 1457.
- [17] "Mean field equations for the matching and the travelling salesman problems", M. Mézard and G. Parisi, Europhys. Lett. 2 (1986) 913.
- [18] "La physique statistique des verres de spin", M. Mézard, Images de la physique 1986.
- [19] "On the statistical physics of spin glasses", M. Mézard, invited paper in "Disordered systems and biological organization", NATO ASI series, vol. F20, Springer-Verlag (1986), eds. E. Bienenstock, F. Fogelman Soulié and G. Weisbuch.

- [20] "Spin glasses and optimization", M. Mézard, invited paper at the Heidelberg colloquium on glassy dynamics and optimization, Lecture Notes in Physics 275 (Springer Verlag 1987), p. 354.
- [21] "Some remarks on ultrametricity", M. Mézard, N. Sourlas, G. Toulouse, invited paper at the Heidelberg colloquium on glassy dynamics and optimization, Lecture Notes in Physics, (Springer Verlag 1987), p. 238.
- [22] "Mean field theory of randomly frustrated systems with finite connectivity", M. Mézard and G. Parisi, Europhys. Lett. 3 (1987) 1067.
- [23] "On the solution of the random link matching problems", M. Mézard and G. Parisi, J. de Physique 48 (1987) 1451.
- [24] "Learning algorithms with optimal stability in neural networks", M. Mézard and W. Krauth, J. Physics A20 (1987) L745.
- [25] "Processing temporal sequences in neural networks", H. Gutfreund and M. Mézard, Phys. Rev. Lett. 61 (1988) 235.
- [26] "The roles of stability and symmetry in the dynamics of neural networks", W. Krauth, M. Mézard and J.P. Nadal, J. Phys. A 21 (1988) 2995.
- [27] "Basins of attraction in a perceptron-like neural network", W. Krauth, M. Mézard and J.P. Nadal, Complex Systems 2 (1988) 387.
- [28] "The Euclidean matching problem", M. Mézard and G. Parisi, J. Physique 49 (1988) 2019.
- [29] "The cavity method and the travelling salesman problem", W. Krauth and M. Mézard, Europhys. Lett. 8 (1989) 213.
- [30] "The space of interactions in neural networks : Gardner's computation with the cavity method", M. Mézard, J. Physics A22 (1989) 2181.
- [31] "Learning in feedforward layered networks : the tiling algorithm", M. Mézard and J.P. Nadal, J.Physics A22 (1989) 2191.
- [32] "Storage capacity of memory networks with binary couplings" W. Krauth and M. Mézard, Journal de Physique 50 (1989) 3057.
- [33] "Optimization problems at thermal equilibrium", M. Mézard, Invited talk at the 2nd Yukawa International Seminar (Kyoto), M. Takayama ed., (Springer Verlag Berlin 1989).
- [34] "Learning algorithms in neural networks : recent results", M. Mézard, invited talk at the Les Arcs conference on Neural networks, in "Neurocomputing", eds. F. Fogelman Soulié and J. Héroult, Springer Verlag (1990) p.75.
- [35] "The spin glass phase in finite dimensions : an approach through $1/d$ expansion", A. Georges, M. Mézard, J. Yedidia, invited talk at the 1989 Recife Conference on magnetism" in "New trends in magnetism", World Scientific 1990 p. 11.
- [36] "Physique statistique et apprentissage dans les réseaux de neurones formels", M. Mézard, invited talk at the "Entretiens de Lyon" in "Neural networks : biological computers or electronic brains", Springer Verlag (1990) p.121.
- [37] "Réseaux de neurones et physique statistique", M. Mézard and J.P. Nadal, Images de la Physique 1990.
- [38] "Des verres de spin aux réseaux de neurones", M. Mézard and G. Toulouse, La Recherche 232 (1991) vol.22, p. 615.
- [39] "Some mean field like equations describing the folding of heteropolymers at finite temperature", J.P. Bouchaud, M. Mézard and J.S. Yedidia, invited talk at the Elba workshop : "Neural networks : from biology to high energy physics", 1991.
- [40] "Low temperature phase of the Ising spin glass on a hypercubic lattice", A. Georges, M. Mézard and J.S. Yedidia, Phys. Rev. Lett. 64 (1990) 2937.
- [41] "On the glassy nature of random directed polymers in two dimensions", M. Mézard, J. Physique 51 (1990) 1831.

- [42] "Interfaces in a random medium and replica symmetry breaking", M. Mézard and G. Parisi, *J. Phys. A* 23 (1990) L1229.
- [43] "Réseaux de neurones et physique statistique", M. Mézard and J.P. Nadal, *Intellectica* 7 (1990).
- [44] "Extensive numerical simulations of weighted matchings : total length and distribution of links in the optimal solution" R. Brunetti, W. Krauth, M. Mézard and G. Parisi, *Europhys. Lett.* 14 (1991) 295.
- [45] "Replica field theory for random manifolds", M. Mézard and G. Parisi, *J. Phys. I* 1 (1991) 809.
- [46] "A variational theory for disordered vortex lattices", J.P. Bouchaud, M. Mézard and J.S. Yedidia , *Phys. Rev. Lett.* 67 (1991) 3840.
- [47] "Polymers with long-ranged self-repulsion : a variational approach" J.P. Bouchaud, M. Mézard, G. Parisi and J.S. Yedidia, *J. Phys. A*24 (1991) L1025.
- [48] "Replica symmetry breaking in the random field Ising model" M. Mézard and A.P. Young, *Europhys. Lett.* 18 (1992) 653.
- [49] "A variational theory for the pinning of vortex lattices by impurities", J.P. Bouchaud, M. Mézard and J.S. Yedidia, *Phys.Rev.* B46 (1992) 14686.
- [50] "A variational approach to directed polymers", M. Mézard and G. Parisi, *J.Phys.* A25 (1992) 4521.
- [51] "Manifolds in random media : two extreme cases", M. Mézard and G. Parisi, *J. Phys. I France* 2 (1992) 2231.
- [52] "Memorizing polymers' shapes and permutations", V.S. Dotsenko, S. Franz and M. Mézard , *J. Phys. A*25 (1992) 6631.
- [53] "On the mean field theory of random heteropolymers", S. Franz, M. Mézard and G. Parisi, invited talk at the Elba workshop, *International Journal of Neural Systems* 3 (Supp1992) 195.
- [54] "On the theory of spin glasses and random field systems", M. Mézard, invited talk at the 16th Gwatt workshop on magnetism, 1992, unpublished.
- [55] "On the ubiquity of spin glass concepts and methods", M. Mézard, Plenary talk at the IVth Bar-Ilan conference, *Physica A*200 (1993) 111.
- [56] "Off-equilibrium glassy dynamics : a simple case", S. Franz and M. Mézard, *Europhys. Lett.* 26 (1994) 209.
- [57] "Partial annealing and overfrustration in disordered systems", V.S. Dotsenko, S. Franz and M. Mézard , *J. Phys. A*27 (1994) 2351.
- [58] "On mean field glassy dynamics out of equilibrium" S. Franz and M. Mézard, *Physica A*210 (1994) 48.
- [59] "Self induced quenched disorder : a model for the glass transition", J.P. Bouchaud and M. Mézard , *J. Phys. I France* 4 (1994) 1109.
- [60] "Glassy transition in the three dimensional Random Field Ising Model", M. Mézard and R. Monas-son, *Phys. Rev.* B50 (1994) 7199.
- [61] "Spin glasses : an introduction", M. Mézard, Proceedings of the Cargese summer institute on "From statistical physics to statistical inference and back", P. Grassberger and J.P. Nadal eds. Kluwer, 1994.
- [62] "Glassy systems : statics and dynamics", M. Mézard, Invited talk at the XIth International Congress of Mathematical Physics (Paris 1994).
- [63] "Random systems and replica field theory", M. Mézard, Lecture given at the Les Houches school, Session LXII, 1994 ; "Fluctuating geometries in statistical mechanics and field theory", F. David, P. Ginsparg and J. Zinn-Justin eds., Elsevier 1996.
- [64] "Glassy dynamics", M. Mézard, invited talk at "Statphys 19", Hao Bailin ed., World Scientific 1996.
- [65] "Aging without disorder on long time scales", W. Krauth and M. Mézard, *Z. Phys.* B97 (1995) 127.

- [66] "Scaling and intermittency in Burgers turbulence", J.P. Bouchaud, M. Mézard and G. Parisi, Phys. Rev. E52 (1995) 3656.
- [67] "Phase space diffusion and low temperature aging", A. Barrat and M. Mézard, J. Phys. I France 5 (1995) 941.
- [68] "Entropy barriers and slow relaxation in some random walk models", J.P. Bouchaud, C. Godrèche and M. Mézard, J. Phys. A28 (1995) L603.
- [69] "Aging classification in glassy dynamics", A. Barrat, R. Burioni and M. Mézard, J. Phys. A29 (1996) 1311.
- [70] "Mode coupling approximations, glass theory and disordered systems", J.P. Bouchaud, L. Cugliandolo, J. Kurchan and M. Mézard, Physica A 226 (1996) 243.
- [71] "Dynamics within metastable states in a mean field spin glass", A. Barrat, R. Burioni and M. Mézard, J. Phys. A 29 (1996) L81.
- [72] "The large scale energy landscape of randomly pinned objects", L. Balents, J.P. Bouchaud and M. Mézard, J. Phys. I France 6 (1996) 1007.
- [73] "A tentative replica study of the glass transition", M. Mézard and G. Parisi, J. Phys. A 29 (1996) 6515.
- [74] "Velocity fluctuations in forced Burgers turbulence", J.-P. Bouchaud and M. Mézard, Phys. Rev. E. 54 (1996) 5116.
- [75] "Vector breaking of replica symmetry in some low temperature disordered systems", V. Dotsenko and M. Mézard, J. Phys. A 30 (1997) 3363.
- [76] "Landscape approach for pinned elastic interfaces", J.-P. Bouchaud and M. Mézard, Physica D107 (1997) 174.
- [77] "Aging in Glasses : Traps and Mode-Coupling Theory", J.-P. Bouchaud and M. Mézard, Prog. Theor. Phys. Supp. 126 (1997) 181.
- [78] "Elasticity model of a supercoiled DNA molecule", C. Bouchiat and M. Mézard, Phys. Rev. Lett. 80 (1998) 1556.
- [79] "Universality classes for extreme value statistics", J.-P. Bouchaud and M. Mézard, J.Phys.A 30 (1997) 7997.
- [80] "Stretching an heteropolymer", D. Bensimon, D. Dohmi and M. Mézard, Europhys. Lett. 42 (1998) 97.
- [81] "Measuring equilibrium properties in aging systems", S. Franz, M. Mézard, G. Parisi and L. Peliti, Phys. Rev. Lett. **81** (1998) 1758.
- [82] "Disordered systems and Burgers' turbulence", M. Mézard, plenary talk, proceedings of the International Conference of Mathematical Physics (Brisbane 1997), also in the proceedings of the 1998 conference in the memory of Giovanni Paladin.
- [83] "From Black-Scholes to twisted DNA", J.-P. Bouchaud and M. Mézard, <http://www.numerix.com/ideas/offthewall/html/random.htm>
- [84] "Introduction à la théorie statistique des champs", A. Georges and M. Mézard, Cours de l'Ecole Polytechnique, 100 pages (Publication interne à l'Ecole Polytechnique), 1998.
- [85] "Wandering of a contact-line at thermal equilibrium", A. Hazareesing and M. Mézard, Phys. Rev. E **60** (1999) 1269.
- [86] "Thermodynamics of glasses : a first principle computation", M. Mézard and G. Parisi, Phys. Rev. Lett. 82 (1999) 747.
- [87] "How to compute the thermodynamics of a glass using a cloned liquid", M. Mézard, Physica A 265 (1999) 352.
- [88] "A first principle computation of the thermodynamics of glasses", M. Mézard and G. Parisi, J. Chem. Phys. **111** (1999) 1076.

- [89] "Wigner-Dyson Statistics from the Replica Method", A. Kamenev and M. Mézard, J. Phys. A **32** (1999) 4373.
- [90] "Level Correlations in Disordered Metals : the Replica σ -Model", A. Kamenev and M. Mézard, Phys. Rev. **B60** (1999) 3944.
- [91] "Thermodynamics of glasses : a first principle computation", M. Mézard and G. Parisi, Proceedings of the 1998 Pisa workshop, J.Phys.Condens. Matter **11** (1999) A157-A165.
- [92] "Thermodynamics of binary mixture glasses", B. Coluzzi, M. Mézard, G. Parisi and P. Verrochio, J. Chem. Phys. **111** (1999) 9039.
- [93] "The response of glassy systems to random perturbations : A bridge between equilibrium and off-equilibrium", S. Franz, M. Mézard, G. Parisi and L. Peliti, J. Stat. Phys. **97** (1999) 459.
- [94] "Elastic Rod Model of a Supercoiled DNA Molecule", C. Bouchiat and M. Mézard, Eur. Phys. J. E **2** (2000) 377.
- [95] "Spectra of Euclidean Random Matrices", M. Mézard, G. Parisi and A. Zee, Nucl. Phys. **B559** (1999) 689.
- [96] "Wealth condensation in a simple model of economy", J.-P. Bouchaud and M. Mézard, Physica A, **282**, 536 (2000).
- [97] "Statistical Physics of Structural Glasses", M. Mézard and G. Parisi, Proceedings of the 1999 ICTP-NIS Conference on "Unifying concepts in glass physics, J. Phys. C. **12** (2000) 6655.
- [98] "Physique Statistique", A. Georges and M. Mézard, Cours de l'Ecole Polytechnique, 223 pages (Publication interne à l'Ecole Polytechnique), 2001.
- [99] "Microscopic Models for Long Ranged Volatility Correlations", Irene Giardina, Jean-Philippe Bouchaud, Marc Mézard, cond-mat/0105076, Proceedings of the NATO Advanced Research Workshop "Application of Physics to Economic Modelling ", Praga (8-10 February 2001), Physica A **299** (2001) 28-39.
- [100] "Population dynamics in a random environment", I. Giardina, J.-P. Bouchaud and M. Mézard, J. Phys. A : Math. Gen. **34** (2001) L245-L252.
- [101] "Hairpin formation and elongation of biomolecules", A. Montanari and M. Mézard, Phys.Rev.Lett. **86** (2001) 2178.
- [102] "The dynamical structure factor in topologically disordered systems", V. Martin-Mayor, M. Mézard, G. Parisi and P. Verrochio, J. Chem. Phys **114** (2001) 8068.
- [103] "The Bethe lattice spin glass revisited", M. Mézard and G. Parisi, Eur. Phys. J. B **20** (2001) 217.
- [104] "On a universal mechanism for long ranged volatility correlations" Jean-Philippe Bouchaud, Irene Giardina , Marc Mézard, Quantitative Finance **1** (2001) 212.
- [105] " A ferromagnet with a glass transition", S. Franz, M. Mézard, F. Ricci-Tersenghi, M. Weigt, R. Zecchina, Europhys. Lett. **55** (2001) 465.
- [106] "Lattice Glass Models", G.Biroli and M. Mézard, Phys. Rev. Lett. **88** (2002) 025501.
- [107] "Non-compact local excitations in spin glasses" J. Lamarcq, J.-P. Bouchaud, O. C. Martin, M. Mézard, Europhys. Lett. **58** (2002) 321.
- [108] "Nature of the glassy phase of RNA secondary structure", F. Krzakala, M. Mézard, M. Müller, Europhys. Lett **55** (2002) 752.
- [109] "Statistical properties of stock order books : empirical results and models", J.-P. Bouchaud, M. Mézard, M. Potters, Quantitative Finance **2** (2002) 251.
- [110] "The secondary structure of RNA under tension", M. Mueller, F. Krzakala, M. Mézard, Eur. Phys. J. E(2002) 67-77.
- [111] "Analytic and Algorithmic Solution of Random Satisfiability Problems", M. Mézard, G. Parisi, R. Zecchina, Science **297** (2002) 812, published online June 27, 2002, 10.1126/science.1073287

- [112] “Statistical Physics of the Glass Phase”, M. Mézard, in : proceedings of StatPhys 21, Physica A **306** (2002) 25.
- [113] “Vieillessement des systèmes vitreux : une sonde fine pour mieux comprendre leurs propriétés”, M. Mézard, dans : la Lettre du département SPM du CNRS, janvier 2002
- [114] “Frustration, désordre, systèmes complexes : la physique statistique hors des murs” Marc Mézard, dans “la lettre de l’Académie des sciences” No 6, 2002
- [115] “Optimization and Physics : On the satisfiability of random Boolean formulae”, Marc Mézard, Ann. Henri Poincaré **4**, Suppl.1 (2003) S475-S488
- [116] “ Passing messages between disciplines”, Marc Mézard, Science **301**(2003)1686
- [117] “La propagation des convictions”, Marc Mézard, Pour la Science, décembre 2003.
- [118] “Message passing in random satisfiability problems”, Marc Mézard, cond-mat/0401237 proceedings of the conference NIPS 2003.
- [119] “The cavity method at zero temperature”, Marc Mézard, Giorgio Parisi, J. Stat. Phys. 111 (2003) 1.
- [120] “Two solutions to diluted p-spin models and XORSAT problems”, M. Mézard, F. Ricci-Tersenghi, R. Zecchina, J. Stat. Phys. 111 (2003) 505
- [121] “The random K-satisfiability problem : from an analytic solution to an efficient algorithm”, Marc Mézard, Riccardo Zecchina, cond-mat/0207194, Phys. Rev. E 66 (2002) 056126.
- [122] “On the formal equivalence of the TAP and thermodynamic methods in the SK model”, A. Cavagna, I. Giardinà, G. Parisi, M. Mézard, cond-mat/0210665. J. Phys. A : Math. Gen. 36, 1175 (2003).
- [123] “Survey propagation : an algorithm for satisfiability”, A. Braunstein, M. Mézard, R. Zecchina, cs.CC/0212002, Random Structures and Algorithms 27 (2005) 201-226.
- [124] “Constraint Satisfaction by Survey Propagation”, A. Braunstein, M. Mézard, M. Weigt, R. Zecchina, cond-mat/0212451, published in : Volume on Computational Complexity and Statistical Physics, Oxford University Press (2003).
- [125] “ Glass models on Bethe lattices”, O. Rivoire, G. Biroli, O. C. Martin, M. Mézard, cond-mat/0307569, Eur. Phys. J. B. **37** (2004) 55-78
- [126] “ Phase Diagram of Random Heteropolymers”, A. Montanari, M. Mueller, M. Mézard, cond-mat/0307040, Phys. Rev. Lett. **92** (2004) 185509.

 United States Patent 7,036,720 ; May 2, 2006.
 Inventors : Mezard ; Marc (Gif sur Yvette, FR) ; Zecchina ; Riccardo (Trieste, IT) Assignee : Centre National de la Recherche Scientifique (CNRS) (Paris, FR) Universite Paris Sud (Paris XI) (Orsay, FR) Abdus Salam International Centre for Theoretical Physics (Trieste, IT)
 Appl. No. : 606275
 Filed : June 25, 2003
 Current U.S. Class : 235/375 ; 700/28
 Current International Class : G06F 17/00 (20060101)
